**Commissioner for Patents**

The timely submission of the Election Response under 37 CFR 1.129(a) filed on December 22, 2005 is not fully responsive to the prior written Election / Restriction Requirement mailed December 9, 2005 because the applicant failed to elect a species, one particular combination of substituted amino acids for the alkaline protease sequence of SEQ ID NO: 1, for examination. Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Election Restriction Requirement, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply to this communication in order to avoid abandonment of the application. Extensions of this time period may be granted under 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William P. Clark whose telephone number is 571-272-8138. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kathleen Kerr can be reached on 571-272-0931. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
